### LOCAL ITEMS.

CHESAPEAKE AND OHIO CANAL .-- We beage, named Jas. Williams, alias Jno. Adams, lieve there will be little, if any, interruption to the Coal trade this fall. There are some 40,000 tons ready for shipment, at the different wharves. There will be some interruption in the transportation of Coal by Canal from Cumberland-but perhaps not for a very long period. A letter from the and Ohio Canal to the President of the Company, received Saturday last says :-- "About 150 feet of dam No. 4, on the Virginia shore, was carried off, but do not know whether it is too high to see the extent of damage; the rest of the masonry is not injured. Some small breaches on the line of the Canal-Dam No. 5 all safe. It will take four weeks to restore the navigation." Receipts of tolls cending, \$1,172.41; total, \$1,296 97.

Corrox .- The amount of cotton shipped from Memphis for the week ending Saturday, September 17, 1859, was 1,056 bales, only 26 of which were shipped to New Orleans. When the Lynchburg Extension of the Orange and Alexandria Railroad is completed, and Alexandria and Memphis are brought bushels of wheat and 50 or 60 barrels of in direct communication by railway, may we not hope that a portion, at least, of the cotton shipped from Memphis, will be brought to this city for export. IMPORTANCE OF THE CONSTRUCTION OF THE A., L. AND H. R. R.—The Chesapeake and Ohio Canal having sustained some damage by the recent freshet, the people of Loudoun, along the line of that work, and others dependent upon it for the shipment of their produce and receipts of supplies, will be put to great inconvenience, and there is scarcely a year that they are not thus incommoded. To avoid this the Leesburg Washingtonian urges the speedy construction to that point of the Alexandria, Loudoun and Hampshire

POLICE MATTERS.—Two men, one for disorderly conduct and the other for selling intoxicating liquors, were before the Mayor on Saturday, and fined respectively \$2,80 and \$6,31, and discharged.

THE NEW STEAMSHIP LINE.—The Leesburg Washingtonian thus speaks in reference to the new line of Steamers between this city and New York :- "The line of steamers between Alexandria and New York. will be of great convenience to the trade of the former city, and also to all those sections of Virginia, united to Alexandria by Railreads and the Canal. We will have direct communication with the great commercial metropolis of the country, which will be of great saving in the freights, in comparison with the transportation upon Railroads .-Merchants from Virginia, who can do so, ought to give them all the trade they can, and liberally sustain this new enterprise .-Alexandria has one of the best ports in the country, and this new enterprise, is but the precursor of similar enterprises to connect that city with other seaport cities of the country.

The Rockingham Register, speaking of the same line, says : - "We desire to call public attention to this important enterprise, in which Alexandria and all the Valley of Virginia has so deep an interest. Our merchants who want to go to New York, and our farmers who desire to send their flour, &c., to that point, have, in this line, the best possible facilities to do so. It is unquestionably the pioneer of a complete success. The idea originated with Messrs. Fowle & Co., of Alexandria, gentlemen of enlarged intelligence, sagacity, energy and means, who soon found kindred spirits in New York. ready to second the motion for new and profitable bonds of connection between Virginia and New York"

KETTLEWELL'S MANIPULATED GUANO. WE cannot present to the Agricultural community more complete and satisfactory testimony of the value of this FERTILIZER, ontained in the following letters, from well known parties in Virginia and Maryland.

No. 4 South Wharves,

LINDEN, September 3d, 1859. John Kettlewell, 1849.

John Kettlewell, 1849.

John Kettlewell, 1849.

Jour Nic:—I promised to give you a candid statement of the result of the use of your Manipulated Guano on my crops of this year. The result of the wheat harvest in Eastern Virgains, as you know, was anything but satisfuctory. I think it due to you, however, to state, that my crops were quite as good, I might perhaps say, with truth, better, than those of my meighbors. I used your Guano principally, and in small quantities, in various ways. I am astisfied for the vield of erain was unite as large, indeed estisfied that the yield of grain was quite as large, indeed

he early rust.
I may say, however, that I am satisfied with your Guano and shall send you a large order in a tow days. Having visityour works, and witnessed the manipulating process, at had from you full and cateful explanations of the who business. I am satisfied, not only of the theroughness, be of the entire fairness of the operation. Under this impresthe patromage of my brother farmers. Yours, truly, WILLOUGHBY NEWTON. PRINCE GEORGE'S, August 25, 1859.

John Kerriewell, Eq. Box Sir:—I received your note some time since asking their Sir:—I received your note some time since asking the some Wanipulated Guane with other Guano that Phace used, but am better peases with the results of yours than any other that I have used. My wheat and outs, where it was applied, ripened beautifully. The last sowing (with your Guano) was harvested before the rarly without Guanos-the straw light and grain full. The tobacco ahead of that alongside on better land. Respectfully yours.

With D. BOWIE.

WEST RIVER, July 24, 1859.

John Kettilwell, 789.

Dear Set:—The effect of the Manipulated Guano, No. 1.

[procursed from you) on tobacco, has been so marvellous,
that I consider it my duty to voluntarily furnish you with this statement.
I bought last Spring only 1½ tons of it, to apply to a few I bought last Spring only 11% tons of it, to apply to a few knolls in an otherwise rich field—capable, in good seasons, of producing 300 basels of wheat, or, on stubble, 1,000 fbs, of tolacce, per acre. There were, however, a few spots so poor, that I felt convinced they would not pay for the later of cultivation without being carriched. I therefore applied to them about 200 fbs, of your mixed Guanes to the acre, broadcast, and plewed it before laying off. The plants in these spots stood remarkably well, and seemed to grow off almost immediately after being set, and have continued, up to this time, for aboad of all other pertions of the crop. So marked is their superiority, that the eye at once tones the extent of the application of the fertilizer; and it would be worth your while to come down and see for yourself. I am satisfied that I should have profited by a similar appli-cation to the entire field, especiality as, from former experi-

ent servant, GEORGE W. HUGHES.

ROCKVILLE, August 25, 1859. Note: A purchased of you a quantity of your "Manipulated Guano" last Fall, for my wheat erop, and drilled in one of my fields 100 pounds to the acre, and I think I have made 30 bushels of wheat to the acre. I used through the cent Yours most truly,
